Urban Agriculture and Food Production

dimanche 17 juillet 2022

South African Food Lab
Scott Drimie

Context

The session will facilitate a dialogue to develop a systemic understanding of food security issues facing many Southern African cities; to co-design innovations to shift the system towards a more sustainable and equitable path and to present a series of four scenarios examining possible futures of the food system in South Africa.
In particular the session will co-create a policy resolution for African cities that supports African Vision 2063.

Speakers

Panel
